Call for Applications

Weed Research

Editorship 2019-2021

The European Weed Research Society (EWRS), is seeking a new Editor-in-Chief for Weed Research who will be officially responsible for the Journal from 2019 through 31 December 2021.

The duties of the Editor-in-Chief will include:

• The new Editor-in-Chief will make every effort to publish and actively solicit authoritative, original and high-quality research articles on all aspects of weeds, defined as plants that impact adversely on economic, aesthetic or environmental aspects of any system.
• He/she will take responsibility for the scientific contents of Weed Research.
• He/she will supervise the processes of peer review, reviewer selection, and communication with authors.
• He/she will make every effort to ensure a rapid and efficient review of all submitted papers.
• He/she will maintain the flow of accepted papers at a level and on a schedule for regular publication of Weed Research.
• He/she will work closely with the Society and Publisher to support the society’s mission and to grow the output and impact of Weed Research.

Application package:

• A current curriculum vitae. Candidates for the position should:
  - Have internationally recognized standing within the subject area
  - Have a broad knowledge of the field
  - Be experienced in editorial decision making
  - Be highly skilled in editing and writing
• Specific objectives he/she wants to achieve over the duration of his/her term.
• Include vision for the future of Weed Research. Strategies to increase output, readership, reputation and impact.
• Approach to maintaining the quality, accuracy and fairness of the review process.
• Indication of when he/she will be able to take on full responsibility of Editor-in-Chief duties. Ideal candidate to take on duties from 1st January 2019.

Nominations and personal applications from suitably qualified and experienced candidates are invited by email attachment to hmyrr@wiley.com, by 3 December 2018.

All applications and inquiries regarding this position will be treated in confidence.
