

Data Request Proposal for data from the AWME database.

Use this form to request data from the AWME database. Before completing this, please read the *Data Availability Regimes* and *Conditions of Use* available via the website or from [Helen Metcalfe](#).

First name:	
Last name:	
Email:	
Affiliation, e.g., University or Institute:	
Address:	
Country:	
Have you already contributed data to AWME? ^a If not, is your request supported by an AWME dataset owner? Give details.	
Proposed project title:	
Brief description of aims and basic methods of the study:	
Description of data required: Include geographic area (countries, region or range of geographic coordinates):	
Proposed publication(s) or reports:	
Estimated time of delivery of results, e.g., manuscript ^b	
Proposal on how to handle any joint authorship required ^c:	
<p>I have read the <i>Conditions of Use</i> of data provided from the AWME database and agree to those conditions.</p> <p>Signed: _____ Date: _____</p>	

Once completed, this form to be submitted to the AWME coordinating group.

Notes:

^a All datasets within AWME are assigned one of three **Data Availability Regimes**. With respect to data under Regimes 1 and 2, only proposals submitted by dataset owners who have contributed to AWME will be considered. Other persons who are not involved with AWME so far may ask for these data but their request needs to be supported beforehand by one of the AWME dataset owners.

^b After data delivery, applicants need to deliver the result (e.g., a manuscript ready for submission) within three years, or they lose the mandate to use the data.

^c For data under Regime 1, data applicants need to negotiate joint authorship with the data owner for each proposal.
